The detailed info text will guide you as you play. ▲ If you are a seasoned player, you can definitely master the commands and abilities. ▲ The most exciting thing for me was to observe the elements of a map environment, as well as the unique animations based on the gameplay. ▲ You can easily find enemies and choose your combat method (such as critical hits/wounds), along with your skills and abilities to fight in a wide variety of environments. ▲ The strength of the sound design was quite impressive. ▲ For example, I was surprised by the sounds of the wind blowing into my ears, which made the atmosphere very exciting and cool. ▲ Although I think there were some annoying sounds, I heard it was based on a previously verified work and polished based on feedback from those making it.
